

Job Title: Education and Outreach Intern

Reports to: Education Coordinator

Hours: Average 10 hours a month, with somewhat flexible schedule

Position Overview

CoRenewal is a 501(c)3 nonprofit organization dedicated to preserving biodiversity and ameliorating the impacts of natural disasters and ecological disturbances on both community and ecosystem health. We are committed to environmental justice and education. Through our programs, we facilitate research and implementation of collaborative and community-led solutions for supporting ecological resilience.

Our research projects are meant to develop best practices and regenerative ecological solutions that can be shared, replicated, and implemented by communities worldwide. We prioritize and integrate education and skill-building in all our work. We translate scientific findings to broad audiences, emphasizing community-led restoration methods that leverage accessible and open-source technologies. CoRenewal's education and outreach efforts include several online classes, in-person courses, trainings, speaker series, and a public study group. These programs showcase what we've learned through our projects, highlight similar projects, build community capacity, and increase public access to bioremediation training and resources.

This internship is a great opportunity for someone who wants to co-create dynamic, compelling educational offerings, and engage with the regenerative social justice and applied research science movement. We are looking for someone who is comfortable with activities such as using social media for outreach and marketing, tracking online class registrations, responding to emails in a timely fashion, and working with a team.

Work with the Education Coordinator to:

- Develop curriculum
- Plan logistics of educational events

- Set up online registration systems
- Promote events using social media and other tools
- Respond to inquiries from the public about educational events
- Host live events on Zoom
- Host Covid-safe in-person events
- Engage in development of CoRenewal's Education and Outreach endeavors

Required Abilities:

- Proficient in Microsoft Office, Zoom, Google Suite, online collaboration tools, social media and server-based databases
- Respond to emails and complete tasks in a timely fashion

Preferred Qualities and Abilities:

- Interest in sustainability, ecological regeneration, social justice and bioremediation
- Enthusiasm for creating educational opportunities

Compensation:

There is no financial compensation for this position. However, we are offering value-added benefits including:

- Free access to all of CoRenewal's educational offerings
- Mentorship from seasoned organizers and bioremediation scientists
- Opportunities to connect with a wide community of regeneration luminaries
- Practice using valuable skill sets that can be applied in a wide variety of nonprofit and business settings.
- Professional verification of internship contributions, supporting school requirements for extracurricular credit, or on-the-job experience

Working with CoRenewal:

- Work with a team of amazing, committed organizers and scientists, doing cutting edge research and environmental justice work
- Grow your network while you grow your skills and knowledge base

- Hours and schedule are mostly flexible, some fixed times associated with event attendance required

CoRenewal is an equal opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees.

To be considered for this position, please email a resume, cover letter and a sample of your academic writing to corenewalinc@gmail.com. No telephone inquiries, please.
